

KOULURY YAMINI SRIJA

ykoulury@iu.edu | 812-778-5430 | <https://www.linkedin.com/in/srija06/>

EDUCATION

Indiana University Bloomington, Indiana, USA

Master of Science in Data Science

Present

Manipal Academy Of Higher Education, Dubai, UAE

Bachelors in Computer Science

June 2023

GPA: 8.4/10

TECHNICAL SKILLS

Programming Languages: Python, SQL, R

Web Development: HTML, CSS

Technologies & Tools: Linux, 3D Printer Firmware (Marlin, Klipper), LED Matrix

Data analysis & Visualization: MS-Excel, Power BI

WORK EXPERIENCE

Emirates Steel Arkan, Abu Dhabi, UAE

March 2024 - July 2024

Business Analytics Intern

- Optimized materials management and warehouse data processes using Excel and SQL, improving data precision by 20% to support ERP system upgrades and SAP migrations.
- Integrated cloud platforms, e-sourcing tools, and APIs with SAP, enhancing procurement efficiency and reducing processing time by 25%.
- Developed and tested in-house applications using Agile methodology, leveraging data analytics to ensure seamless system integration.

3rd Eye Labs, Abu Dhabi, UAE

December 2023 - February 2024

Software Engineer

- Engineered firmware optimizations for 3D printers (Marlin, Klipper) using Python & C++, improving hardware performance showcased at Comic-Con (MEFCC) 2024.
- Developed advanced LED lighting systems on Adafruit Matrix, integrating Flipper Zero for enhanced device capabilities.
- Researched 3D printer technologies (Bambu Lab, Prusa) and implemented Fusion 360 workflows, optimizing product design and manufacturing efficiency.

New York University, Abu Dhabi, UAE

September 2023 - December 2023

Data Science Research Intern

- Analyzed large datasets for research publications, applying advanced statistical models to ensure data accuracy and reliability.
- Automated data scraping and visualization using Python and R, reducing manual effort by 40% and improving insights for research findings.
- Utilized data-driven approaches to contribute to scientific advancements in computational research.

Delivr Apps, Dubai, UAE

February 2023 - June 2023

Tech and Techno Commercial Intern

- Built a C++-based correlation engine to track & enrich OS events, increasing endpoint visibility and system security.
- Improved deployment by optimizing sensor setups for Windows Installer Packages, reducing installation time by 30%.
- Deployed backend services in private cloud environments, enhancing system security and performance.

PROJECTS

Alzheimer's Diagnosis Predictive Modeling | Python, Jupyter Notebook

October 2024 - December 2024

- Developed machine learning models (SVM, Random Forest, XGBoost) on OASIS datasets, achieving 93% accuracy with longitudinal data and addressing class imbalance with advanced techniques.
- Leveraged SHAP explainable AI to identify key predictors like MMSE and brain volume, providing actionable insights for early diagnosis and personalized care.

Medicine Recommendation System | Python, AWS, NLP, Docker

October 2024 - December 2024

- Developed a cloud-based healthcare system on AWS (EC2, App Runner, ECR), integrating NLP and SVM for disease detection and personalized health recommendations.
- Utilized Docker for seamless deployment, achieving 89.2% model accuracy, and implemented scalable, secure real-time solutions for medication, diet, and exercise guidance.
